

A small brown bird, likely a species of warbler or similar, is perched on a dark, thorny branch. The bird has a slender body, a pointed beak, and is facing left. Its plumage is a mix of light and dark brown tones. The background is a soft, out-of-focus green, suggesting a natural, outdoor setting. The lighting is even, highlighting the bird's features against the branch and the background.

シマセンニュウ

A small brown bird, likely a Shima-senryu, is perched on a branch of a green leafy plant. The bird has a slender body, a pointed beak, and is facing left. The background is a soft, out-of-focus green, suggesting a natural, outdoor setting. The lighting is bright and even, highlighting the textures of the bird's feathers and the surrounding foliage.
