木の幹にとまるオオアカゲラ♀

A female Great Spotted Woodpecker (オオアカゲラ) is shown in profile, clinging to the rough, textured bark of a tree trunk. The bird has a black and white patterned back and wings, a yellowish face with a black stripe through the eye, and a long, pointed beak. Its feet are visible, gripping the bark. The background is a soft-focus green, suggesting a forest setting.

羽繕いをするオオアカゲラ♀

A young woodpecker, likely a Great Spotted Woodpecker, is perched on a thick, moss-covered tree branch. The bird has a black cap with a white stripe through the eye, a black and white patterned back and wings, and a reddish-brown belly. It is looking towards the right. The background is a soft-focus green forest.
